DuCoNite15

Bredel DuCoNite® pumps

Features and benefits

- Dry running and self-priming
- Suction capability up to 9.5 mWC (374 inWC)
- Simple hose change decreases cost of ownership, downtime and need for parts inventory
- "Beyond the hose" protection against common water and waste water treatment chemicals
- Paint-free pump housing perfect for wash-down in the food industry
- No slippage, allowing true positive displacement for accurate and repeatable metering
- No ancillary equipment, check valves, sealing water flush systems or run-dry protection required
- Fully reversible to blow out suction and drain lines safely

DuCoNite15 performance

- 1. Flow required indicates pump speed
- 2. Calculated discharge pressure
- 3. Net motor power required
- 4. Product temperature
- 5. Calculated discharge pressure
- 6. Maximum recommended pump speed

Note: The area of continuous operation diminishes with increased product temperatures. For product temperatures >40C, the area of continuous operation reduces to the corresponding red temperature line.

Continuous duty

Intermittent duty

* Maximum 3 hours operation followed by minimum 1 hour stop

Bredel Hose Pumps

Please consult your Bredel representative for lower or higher temperature operation. Allowable ambient temperature is based on pump capabilities and may be further limited by gearbox ambient capabilities.

Materials of construction

	DuCoNite15							
Hose material	CSM, EPDM, F-NBR, Natural rubber (NR), NBR, NBR for food, NR-Metering, NR-Transfer							
Housing	Cast iron with DuCoNite surface treatment							
Rotor assembly	Cast iron with DuCoNite surface treatment							
Cover assembly	Cast iron with DuCoNite surface treatment							
Brackets and fasteners	Stainless steel 316							
Support frame	Stainless steel 316							
Hose clamps	Stainless steel 316							
Coupling bush	Alloy steel							
Seals	EPDM
