# Accessing the Bredel Augmented Reality App

■ Install the free Vuforia View app from PTC inc.

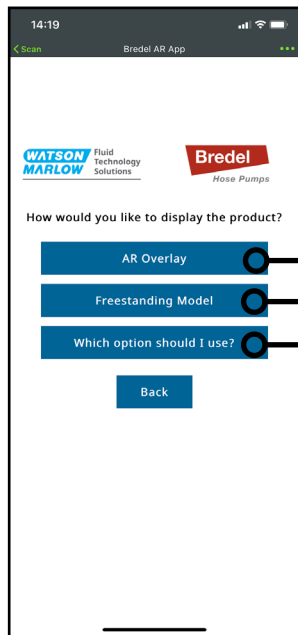

Supported devices: [click here](#).

■ To view this AR experience, use Vuforia View to scan this QR code:

Alternatively [click here](#).

# App features

## Maintenance mode selection

**AR Overlay**—users with access to physical product. This mode overlays a virtual model and animated instructions directly onto the physical product.

**Freestanding Model**—users without access to physical products. This mode will display a complete interactive 'virtual product' onto any flat surface in front of the user.

**Which option should I use?**  
Contains description of above modes.
