

Divert valves

Divert valves

Features and benefits

- Accommodates our contamination-free clamp assembly technology making the valves easy to fit in place, inspect and maintain
- Designed to allow division and blending of up to three lines in a single valve body
- Flush mount design
- Simple clamp assembly
- Change diaphragms in seconds
- Minimizes distances between each valve seat (fewer and shorter dead legs)
- Self-draining with full CIP/SIP capability
- Available valve sizes: 0.5", 1.0", 2.0", 2.5", and 3.0"
